Hi Professor van Benthem,

Thanks for filling out our survey on Joel's academic family tree! We weren't able to find email addresses for one of the students you listed: Bo Cheng.

If you have their updated contact info, could you please send it our way? No worries if not.

Thanks so much!

Jensen

Hers is ablas@gmu.edu.

I also forgot to include Art Carden as a student. His email is wcarden@samford.edu

I'm sure I forgot several others. I'm not as organized as Joel!

Hi Professor Nye,

Thanks for filling out our survey on Joel's academic family tree! We're missing email addresses for one of the students you listed: *Anne Blas*.

If you have their updated contact info, could you please send it our way? No worries if not.

Thanks so much!

No problem! Tim's definitely pulled out. I'll let you know what I find out about Angela.

Hmm, you'd think the university would tell me when one of my students graduated, and you'd be wrong. Welcome to New Zealand!

Timothy Wilson definitely didn't complete.

I'm checking on the status of Angela Natali.

The following students definitely did complete:

Lorena Di Bono (Ph.D., graduated 2025(?)), Victoria University of Wellington

Adrian Ortiz Cervantes (Ph.D., graduated 2022), University of Auckland

Jacob Pástor (Ph.D., graduated 2021), Victoria University of Wellington

Michelle Poland (Ph.D., graduated 2018), University of Otago

Yes, though not as primary advisor and they didn't all finish. (Sorry - the rules weren't very clear!)

Hi Jensen,

I finally found an email address for Tim! timothypaulwilson@gmail.com

Unfortunately I only have university email addresses for Adrian and Angela, which I assume they no longer use, but here they are just in case they're helpful:

Adrian: A.Ortiz-Cervantes@auckland.ac.nz

Angela: Angela.Natali@vuw.ac.nz

Cheers,
Izi

Hi Ran—it looks like these are standard email bounce-back errors. Some of the recipient addresses are likely inactive or could be blocked by the recipient institution's mail server (more likely the former) — not an Excel copy/paste issue.

I'll do some additional digging to verify the problematic addresses and see if we can find updated emails for those individuals.

Another one. I am getting many of these, is it possible that copy/paste from the excel didn't work? Please advise.
